

Quality

DW Homes is all about building your custom dream home. Bring your design, completed or partial, and our designer / architect can assist you with your final plans.

CUSTOM FEATURES TO CONSIDER WHEN DESIGNING YOUR HOME

- * Square footage for comfort and resale value (usually between 2500 and 4000 sq ft)
- * Open floor plan to allow easy flow and movement between high traffic first floor rooms
- * Curb-side appeal for architectural beauty and resale value
- * Distinctive interior trim and wood work including hardwood floors, staircases and built-ins
- * Master suite on the main floor when planning for your retirement
- * Side entrance three car garage to ensure privacy and to allow your home exterior to make a statement
- * Full brick wrap with distinctive detailing such as quoin corners and other raised brick patterns around windows and entranceways. Consider including some stone veneer in the exterior design.
